

A first for the industry.

The **CSI Construction Education Network (CEN) Provider Program** is unique in that never before has there been a continuing education program that connects each and every one of the disciplines that make up the built community. From architects, engineers and contractors to manufacturers, facility managers and developers, CSI CEN has been designed to serve the needs of the entire built community. There is no other provider program more comprehensive in scope.

CONNECTED TO IT ALL

The Construction Specifications Institute Construction Education Network (CEN) Provider Program

The Construction Education Network (CEN) was created by the Construction Specifications Institute (CSI). For over 50 years, CSI has been the body responsible for setting the industry standards for construction project practices. Now, with CSI CEN, we are setting the standards for continuing education programs and so much more.

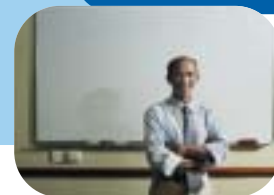

What does CSI CEN do?

- Sets the industry standards for continuing education programs, based on International Association for Continuing Education and Training (IACET) criteria.
- Publishes a comprehensive online database of every CSI CEN registered continuing education program that is publicly available.
- Provides a fully integrated credit management system for learners, instructors and providers.

What does CSI CEN offer Learners?

- Integrated, standardized continuing education of the highest caliber.
- CSI CEUs and HSW continuing education credit accepted by licensing, certification and accreditation agencies.
- Comprehensive web-based directory of available CSI CEN programs searchable by topic, occupation, provider and much more.
- Secure, password protected access.
- Simple and expedient retrieval of historical program data and transcripts tracked up to 7 years.
- Personal and dedicated support services available via telephone, e-mail and the Internet.

What does CSI CEN offer Providers?

- The prestige and integrity of being associated with the organization that set the standards for the industry.
- The opportunity to offer learners the highest quality education programs through CSI CEN Standards based on IACET and licensing authority regulations.
- Secure, password protected access.
- State-of-the-art, easy to use credit management system.
- User friendly program submission and completion certificate tools which reduce administrative tasks and lower the costs involved in offering an education program.
- Provider programs promoted on the official CSI CEN website and other directories.
- Provider exposure with a link to the provider's website from the CSI CEN online Provider Directory.
- The ability to offer quality education to professionals with legal and certification requirements for continuing education credits.
- Authorized use of the CSI CEN logo on all registered program promotional materials.
- Instant online credit submission to the CSI CEN in mere seconds.
- Access to our monthly e-newsletter.
- Personal and dedicated support services available via telephone, e-mail and the Internet.

Easy to navigate website.

The CSI CEN website offers a wealth of features and content. Making sure it is simple to find what you want, when you want is our top priority. The result is a CSI CEN website and database interface that is inviting and intuitive, making it extremely easy to use.

The mark of a superior program.

Learners and providers alike will appreciate that the CSI CEN logo stands for the highest quality education programs. When seen in conjunction with program and promotional materials it is the learner's reassurance that the program being considered meets or exceeds the highest continuing education standards in the world.

Get connected to the industry.

To become a CSI CEN Registered Provider or to find out more about CSI CEN visit www.csinet.org/provider today or call 1-888-861-6067.

Connected to it all.

Get connected to architects, specifiers, engineers, contractors, interior designers and the entire building industry through one registered provider program.
